

A TASTE OF CNAS WITH THE BEES & THE BAERS

Saturday, November 19 | 1-4 p.m.

At the CNAS booth during the UCR Homecoming Concert on HUB Lawn

For those attending the UCR Homecoming Concert, join the UC Riverside College of Natural & Agricultural Sciences for a sweet experience — "A Taste of CNAS with the Bees and the Baers." Buzz on by the CNAS booth, during the UCR Homecoming Concert, to learn more about UCR research to safeguard bees and their pollinating services to secure human food production and ecosystem stability from UC Riverside Professor of Pollinator Health Boris Baer and Dr. Barbara Baer-Imhoof. And "bee" sure not to miss out on tasting the honey produced by our very own bees on campus, the bee hive display with real live bees, candle making, and more!

BORIS BAER

UC Riverside Professor of Pollinator Health

BARBARA BAER-IMHOOF

Center for Integrative Bee Research (CIBER)
